Paris Avant-Première is an initiative supporting the emerging artistic scene gathering a community of young galleries and independent Parisian spaces. It strives to outline a local cartography mapping present-day creation, and sheds light on places that foster a budding artistic scene, outside conventional marketing channels. The project and its agents will be given top billing during a week of events and previews organized across the city to launch FIAC, making the most of the international spotlight directed onto the month of contemporary art in Paris.

An artwork for a museum

From its first edition onwards, Paris Avant-Première has shown concrete support to the emerging creative talents by collaborating with Musée d'Art moderne de la Ville de Paris. A budget has been allocated to purchase a work of art: each space taking part in Paris Avant-Première may submit a work to an expert panel specializing in contemporary art, who will settle on a laureate to enter the museum's collections.

2018 laureate is the Venezuelan artist Sol Calero from Crèvecoeur gallery. Her work « Mano » will integrate the collections of the Musée d'Art moderne de la ville de Paris by the end of 2019.

Dates

The 2019 edition of Paris Avant-Première will take place from **October 11 to October 19** in all participating spaces. An opening night will be organized at a collaborating institution on Sunday, October 13, with all participants and guests welcome to join.
